PART I

INTRODUCTION

The 2010 Perceptions of the Voting Experience Survey seeks to understand Americans' perceptions of the voting experience, of both individuals who do and do not vote. Interviews were conducted immediately after the 2010 election, from December 7 to 30, 2010. The data file contains 3,000 interviews (cases), which were matched to responses from the 2010 Cooperative Congressional Election Study (CCES) Common Content, a collaborative effort among researchers headed by principal investigator Stephen Ansolabehere.²

This guide describes the methodology behind the study and the measures and variables developed for the survey. There are four parts to the survey content: (1) questions that were asked of all 3,000 respondents, (2) questions that were asked of only 1,185 respondents ("Form A"), (3) questions that were asked of only 1,815 respondents ("Form B"), and (4) variables from the 2010 CCES Common Content.

² Ansolabehere, Stephen, COOPERATIVE CONGRESSIONAL ELECTION STUDY, 2010: COMMON CONTENT. [Computer File] Release 1: February 26, 2012. Cambridge, MA: Harvard University [producer] <http://cces.gov.harvard.edu>.

SAMPLING METHODOLOGY

The survey was conducted over the Internet by YouGov/Polimetrix.

YouGov interviewed 3,507 respondents who had taken both waves of the 2010 Cooperative Congressional Election Study (CCES). These interviews were then matched on gender, age, race, education, party identification, ideology, and political interest down to a sample of 3,000 to produce the final dataset. YouGov then weighted the matched set of survey respondents to known marginals for the citizen population of the United States age 25+ from the 2008 American Community Survey (ACS). (Those marginals are shown below.) Thus, the final weighted dataset (N=3,000) is meant to be representative of the U.S. adult population (age 25 and over).

Age:	25-34: 18.92%
	35-54: 44.19%
	55+: 36.89%
Gender:	Male: 47.82%
	Female: 52.18%
Race:	White/Other: 80.56%
	Black: 11.40%
	Hispanic: 8.04%
Education:	HS or less: 44.31%
	Some College: 28.23%
	College Graduate: 17.50%
	Post-graduate: 9.97%

The original CCES sample was constructed by first drawing a target population sample. For the 2010 CCES, this target sample is based on the 2008 ACS, November 2008 Current Population Survey Supplement, and the 2007 Pew Religious Life Survey. Thus, the target sample is representative of the general population on a broad range of characteristics including a variety of geographic (state, region, metropolitan statistical area), demographic (age, race, income, education, gender), and other measures (born-again status, employment, interest in news, party identification, ideology, and turnout). A stratified sample of individuals from Polimetrix's opt-in panel (PollingPoint Panel and the E-Rewards and Western Wats panels) was invited to participate in the study. The final set of completed pre-election interviews were then matched to the target frame, using a weighted Euclidean distances metric. For more detailed information on this type of survey and sampling technique see the *Guide to the 2010 Cooperative Congressional Election Study* (available at http://projects.iq.harvard.edu/cces/data?dvn_subpage=/faces/study/StudyPage.xhtml?globalId=hd1:1902.1/17705; select "Data & Analysis" tab and download the file "2010 CCES Guide").

PART II

SURVEY STRUCTURE

The *Perceptions of the Voting Experience Survey* consisted of three sets of questions: (1) questions asked of all (3,000) respondents; (2) questions asked of approximately 40% (1,185) of the respondents (“Form A”); and (3) questions asked of approximately 60% (1,815) of the respondents (“Form B”). The main difference between Form A and Form B is that Form A asked respondents a few questions about their relationship with a variety of groups (e.g., family, friends and neighbors, co-workers) as it pertains to the voting experience, whereas Form B asked respondents more, and more detailed, questions about a single group. Part III of this document provides question wording and coding information for all variables, separated by form. The entries take the following form:

(Variable Name) yal142

(Special Programming Instructions) *This is an experiment. With 1/3 probability respondents should be randomly assigned to the “politics” or “sports” or “religion” condition.*

(Variable Type) SINGLE CHOICE

(Variable Label) Lost a friend

(Question Text) Has a disagreement over [politics / sports / religion] ever resulted in you losing a friend?

Count Code Label (Response Option)

318 1 yes

2679 2 no

3 8 skipped

Part IV of this document then presents coding information for the CCES content. Complete question wording for the CCES content can be found in the *Guide to the 2010 Cooperative Congressional Election Study* (available at

http://projects.iq.harvard.edu/cces/data?dvn_subpage=/faces/study/StudyPage.xhtml?globalId=hd:1902.1/17705; select “Data & Analysis” tab and download the file “2010 CCES Guide”).

=====

yal002 and yal003 should appear on the same page. They have a common header (see below). These questions should not be asked if response for yal001 is option 6 "I have never voted".

Thinking about the last time you voted...

yal002
RULER WIDGET (0 to 100)
Look forward to voting
Did you look forward to voting in this election or think of it as a chore?
RULER WIDGET: Thought of it as a chore – Looked forward to voting
Count Code Label
2875 0-100
4 998 Skipped
121 999 Not Asked

yal003
RULER WIDGET (0 to 100)
Happiness about vote choices
Apart from the actual outcome of the election, how satisfied are you with the candidates you chose?
RULER WIDGET: Completely unsatisfied – Completely satisfied
Count Code Label
2873 0-100
6 998 Skipped
121 999 Not Asked

=====

yal004
This question should be HARD REQUIRED.
SINGLE CHOICE
Voting method (ccES)
Still thinking about the last time you voted...

Did you vote in person on Election Day at a precinct, in person before Election Day, or by mail (that is, absentee or vote by mail)?

Count Code Label
1917 1 in person on election day (at polling booth or precinct)
396 2 in person before election day (early)
549 3 voted by mail (or absentee)
17 4 don't know
121 9 not asked

** If choose 4 "Not Sure", skip to yal060.*

yal005a

To be asked of those who chose response option 2 "Early in person" to yal004.

SINGLE CHOICE

When vote – early

When did you vote?

<i>Count</i>	<i>Code</i>	<i>Label</i>
28	1	1 or 2 days before the election
89	2	3 or 4 days before the election
163	3	5 to 7 days before the election
116	4	More than a week before the election
2	8	Skipped
2602	9	Not Asked

yal005b

Ask of those who chose response option 3 "Absentee or by mail" to yal004.

SINGLE CHOICE

When vote – absentee or mail

When did you fill out your ballot?

<i>Count</i>	<i>Code</i>	<i>Label</i>
21	1	On Election Day or 1 or 2 days before the election
50	2	3 or 4 days before the election
129	3	5 to 7 days before the election
349	4	More than a week before the election
0	8	Skipped
2451	9	Not Asked

*** Early and Election Day Voters**

yal010 to yal023 are to be asked of those who respond either 1 "In person on Election Day (at polling booth or precinct)" or 2 "In person before Election Day (early)" to yal004.

yal010 and yal011

yal010 and yal011 should appear on the same page. They have a common header (see below).

Still thinking about the last time you voted...

yal010

yal040a

This question should only be asked if a respondent chooses "Yes" for yal040.

TEXT BOX

What information?

What information on your ballot could be used to identify the ballot as yours?

*** Absentee or Mail Voters**

yal050 to yal056 are to be asked of those who respond 3 "By mail (including absentee)" to yal004.

yal050 and yal051

yal050 and yal051 should appear on the same page.

yal050

SINGLE CHOICE

Where voted

Where did you fill out your ballot?

Count Code Label

508	1	At home
21	2	At work
16	3	At a government building
4	4	Other
2451	9	Not Asked

yal051

SINGLE CHOICE

Anyone with you?

Was anyone with you when you filled out your ballot?

Count Code Label

127	1	Yes
420	2	No
2	8	Skipped
2451	9	Not Asked

yal052 and yal053

yal052 and yal053 should appear on the same page and are only asked to those who respond 1 "Yes" to yal051.

yal052

SINGLE CHOICE

People in room

How many other people were in the room with you when you filled out your ballot?

Count Code Label

106	1	1
18	2	2 or 3
1	3	4 or 5
1	4	6 to 10
0	5	11 or more
1	8	Skipped
2873	9	Not Asked

yal053

SINGLE CHOICE

Also filling ballots out

Was anyone else also filling out their ballot at the same time as you?

<i>Count</i>	<i>Code</i>	<i>Label</i>
94	1	Yes
33	2	No
2873	9	Not Asked

=====
yal054 and yal055 and yal056

yal054 and yal055 and yal056 should appear on the same page and are only asked to those who respond 1 "Yes" to yal051.

yal054

SINGLE CHOICE

Discuss vote

Did you discuss who you were voting for with anyone else in the room?

<i>Count</i>	<i>Code</i>	<i>Label</i>
98	1	Yes
29	2	No
2873	9	Not Asked

yal055

SINGLE CHOICE

Ask advice

Did you ask anyone in the room for advice about how to vote on a particular race or other issue on the ballot?

<i>Count</i>	<i>Code</i>	<i>Label</i>
47	1	Yes
80	2	No
2873	9	Not Asked

yal056

SINGLE CHOICE

Show ballot to anyone?

Did you show your ballot to anyone after you filled it out?

<i>Count</i>	<i>Code</i>	<i>Label</i>
36	1	Yes
91	2	No
2873	9	Not Asked

Local elected officials

Do you think elected officials access your voting records to figure out who you voted for?

Count	Code	Label
440	1	Yes
743	2	No
2	8	Skipped
1815	9	Not Asked

=====
 yal120

SINGLE CHOICE

How keep choices secret

SINGLE CHOICE

Suppose you were in a situation in which you wanted to keep which candidate you preferred to yourself, rather than tell someone else. In general, how are you most likely to do so?

Count	Code	Label
311	1	I wouldn't keep my preference to myself, I would tell them
65	2	I would tell them I prefer the candidate I think they prefer
107	3	I would change the topic
245	4	I would say that I have not made up my mind
455	5	I would say that my preference is a private matter and I do not wish to discuss it
2	8	Skipped
1815	9	Not Asked

=====

Please randomize the order, with 50/50 probability, of yal121 and yal122.

yal121

This is an experiment. With 50/50 probability respondents should be randomly assigned to the "often" or "rarely" talk about politics condition.

SINGLE CHOICE

Voting private matter

Suppose you have a friend who you [often / rarely] talk with about politics. The subject of an election comes up and your friend tells you they're not going to tell you who they voted for because it's a private matter. How would this affect your feelings about this person?

Count	Code	Label
16	1	Much more negative feelings about them
80	2	Somewhat more negative feelings about them
950	3	My feelings about them would not change
48	4	Somewhat more positive feelings about them
91	5	Much more positive feelings about them
0	8	Skipped
1815	9	Not Asked

yal122

This is an experiment. With 1/3 probability respondents should be assigned to the "friend" or "family member" or "co-worker" condition and with 50/50 probability to the "disagrees" or "agrees" condition.

SINGLE CHOICE

Vote or stay home?

Suppose you have a [friend / family member / co-worker] who generally [disagrees / agrees] with you about politics. Do you think they would be more upset if you voted for a candidate they did not support or if you chose not to vote at all?

Count	Code	Label
136	1	Much more upset if I voted for a candidate they did not support
219	2	Somewhat more upset if I voted for a candidate they did not support
371	3	They would be equally upset if I voted for a candidate they did not support or did not vote at all
220	4	Somewhat more upset if I did not vote at all
230	5	Much more upset if I did not vote at all
9	8	Skipped
1815	9	Not Asked

=====
yal130

SINGLE CHOICE

Voting private matter

Which statement comes closest to your view:

<i>Count</i>	<i>Code</i>	<i>Label</i>
587	1	Democracy works best when people treat their vote choices as personal matters
580	2	Democracy works best when people discuss their vote choices with others
18	8	Skipped
1815	9	Not Asked

=====
Please randomize the order, with 50/50 probability, of yal131 and yal132.

yal131

SINGLE CHOICE

Discussion for information

How much do you agree or disagree with the following statement: Discussing your vote choices with others is a great way to learn about political issues and think through your positions.

<i>Count</i>	<i>Code</i>	<i>Label</i>
338	1	Strongly agree
431	2	Somewhat agree
303	3	Neither agree nor disagree

Content on Form B Only

yal200-yal297 (FORM B ONLY)

For these items, respondents in Form B (of which there should be 1,800 total) should be assigned to evaluate one of three groups: (1) family members, (2) friends and neighbors, or (3) co-workers and their boss or supervisor at work. The allocation of respondents to these groups should be as follows:

Respondents who's Employment Status is "working full time now" or "working part time now" should be randomly assigned with 2/3 probability to (3), 1/6 probability to (2), and 1/6 probability to (1).

Respondents who's Employment Status is not "working full time now" or "working part time now" should be randomly assigned with 50/50 probability to either (1) or (2). This allocation should result in 600 respondents for each "group."

In the items below (yal200-yal297), instances of [group] should be filled in with "family members", "friends and neighbors", or "co-workers" with the allocation strategy outlined above. Variable int_200_297 (see p. 24 of this document) denotes the actual allocations to these three groups.

yal265oa/d

This question should only be asked if a respondent selects “somewhat unlikely”, “somewhat likely”, or “very likely” for yal265a/d.

TEXT BOX

In what other way would your **[group] who generally [agree / disagree] with you about politics** be [somewhat unlikely / somewhat likely / very likely] to find out who you voted for?

If group is “co-workers, then also asked, in a separate grid on a separate page:

How likely is it that your **boss or supervisor at work** would find out who you voted for in each of the following ways:

Columns:

- 1 Very unlikely
- 2 Somewhat unlikely
- 3 Somewhat likely
- 4 Very likely

Rows:

yal266 I would tell them or am open about my candidate preferences (for example, I might display a yard sign or bumper sticker)

yal267 Even if I did not tell them which candidate I supported, they would be able to figure it out based on something else I said or something else about me

yal268 They would look up which party I was registered with or had donated money to, and figure it out

yal269 They would find and match my ballot to me after I had voted

yal270 They would ask someone else who knew who I had voted for

yal271 Some other way not listed here

yal271o

This question should only be asked if a respondent selects “somewhat unlikely”, “somewhat likely”, or “very likely” for yal271.

TEXT BOX

In what other way would your **boss or supervisor at work** be [somewhat unlikely / somewhat likely / very likely] to find out who you voted for?

=====

yal280a/d to yal288a/d

This grid will be displayed twice on the same page. The two headings are below; they should be randomized (50/50) which one appears above the first grid; the other should then appear above the second grid. Please put the suffix “a” (for agree) or “d” (for disagree) after the variable number to distinguish which heading was used.

GRID

Groups – consequences

Heading 1 (a): Suppose that your **[group] who generally agree with you about politics** found out that you were planning on voting for or had voted for a different candidate than them. How likely would it be that each of the following would occur?

Heading 2 (d): Suppose that your **[group] who generally disagree with you about politics** found out that you were planning on voting for or had voted for a different candidate than them. How likely would it be that each of the following would occur?

Columns:

- 1 Very unlikely
- 2 Somewhat unlikely
- 3 Somewhat likely
- 4 Very likely

Rows:

- yal280 It would make them respect me for having an independent mind
- yal281 It would make them angry or upset
- yal282 It would hurt my relationship with them or I would be uncomfortable around them
- yal283 It would make them think less of me or lose respect for me
- yal284 It would damage my career or a family member’s
- yal285 It would result in enjoyable political conversations
- yal286 It would result in arguments or other unpleasant discussions
- yal287 It would prompt them to try to change my mind, force me to defend my decision, and/or make me reconsider my decision
- yal288 Something else bad would happen
